marks will be based on:

- large number of HTML tags including ≥ 3 not used in the examples in the course materials
- correctness, readability and style of HTML code
- creativity, organization, style and usability of the web pages
- compliance with submission requirements

<http://www.utsc.utoronto.ca/~06yourname/csca02/resume.html>

Warning!: no "index.html"

We need directory listing

...Review for A1...

- all file names are case sensitive
 - sunset.gif ≠ Sunset.gif ≠ SUNSET.GIF

- avoid spaces
 - use PacificSunset.gif not Pacific Sunset.gif

- use only a plain text editor to create your A1 HTML files
 - No software that automatically generates HTML code in any way

...Review for A1...

- working at home?
 - use a plain text editor to create the file
 - use a web browser to view the processed pages
 - get the bugs out
 - take the files to campus on a floppy diskette
 - transfer them to the W: drive into the 'csca02' folder
 - copy all relative image files and HTML
 - test it thoroughly again
 - print the source code (html files) when it's fixed
