

# Paper Critiques (10%)

- Once we start reading research papers, each week students will be required to **hand in a 1-2 page written critique** of the assigned readings. Reports are not required by students on weeks they are presenting a paper.
- Your goal in the written critique is to explain the nature of the problem, its significance, and your assessment of the contribution. You may write a separate critique of each reading on a given week, or one critique that discusses all of the assigned readings together.

**You will not have to do paper critiques for the instructor and guest lectures, but you will be expected to participate in class.**
