

The Technologies for Aging Gracefully lab (TAGlab) invites you to our Open House.

**Wednesday, October 2<sup>nd</sup> from 4-8 PM**

The University of Toronto  
Bahen Centre for Information Technology, 7<sup>th</sup> floor  
40 St. George Street

7<sup>th</sup> floor via the College Street (south) elevators. Please see the map below.

TAGlab welcomes our colleagues, seniors, and community members to meet, socialize, and check out the projects we have been working on!

Please RSVP to [inquiries@taglab.ca](mailto:inquiries@taglab.ca)

### What to Expect

#### **TalkRocket Go and RocketKeys**

A Context-Aware Mobile Device to help people speak, and a Flexible, Accessible Keyboard, from MyVoice Inc., our corporate alumnus, of which we are justly proud!

#### **Accessible Large-print Listening and Talking eBook**

Helping individuals who have vision loss and motor difficulties to read, and to read together with family

#### **Multimedia Biographies**

To capture life histories and support recall and reminiscence

#### **InTouch**

A digital picture frame and web portal to combat isolation and loneliness

#### **VocabNomad**

Providing English language learners with the vocabulary that they need when they need it

#### **The reveal of our new website!**

**TAGlab** Technologies for Aging Gracefully Lab  
RESEARCH FOR THE JOURNEY THROUGH LIFE

The University of Toronto  
Bahen Centre for Information Technology  
40 St. George Street

Refreshments and appetizers will be served. Hope to see you there!
