

BREADTH CREDIT EVALUATION FORM

Department of Computer Science MSc students are eligible for Methodology Breadth (M) credit(s) for any graduate level CS courses completed at an accredited University.

PhD students are eligible for Research Area (RA) breadth credit(s) for CS courses taken as part of their previously completed Master's program.

CS MSc students transitioning to the PhD program will be given breadth credit for CS graduate courses completed toward their Master's degree.

Along with completion of this form (including your Supervisor's signature) include:

1. Course syllabus with grading scheme and classroom hours per week (not required for U of T CS courses)
2. A photocopy of the transcript with course(s) highlighted

Submit to the Graduate Office Bahen 4242 or by email to: gradprograms@cs.toronto.edu
