- 16:00 - 17:00 Plenary reports and Discussion
- 17:00 Workshop Ends

First International Workshop on
Software Research and Climate Change

Orlando, Florida
26 October 2009

Goals

- Understand the challenge
- Identify our potential contributions
- Identify barriers to progress
- Build community
- Develop strategies to mobilize the software community

Potential Outcomes

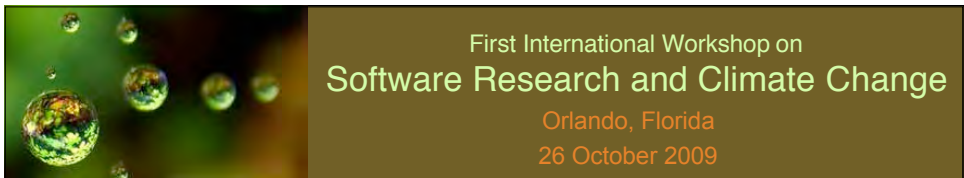

A preliminary research agenda...

...to act as a prototype for an ACM taskforce...

...which will produce a detailed set of recommendations...

...which **the NSF** can then build a program around...
insert your favourite funding agency

(and a plan for a 2nd workshop at ICSE'2010 in Cape Town)
