

The Department of Computer Science presents the first in a series of Research Lab Open Houses

Systems & Networks Research Labs Open House

Please join us in seeing first hand the Systems & Networks Research Group's (www.cs.toronto.edu/systems) creative and lively environment that has drawn public interest and motivated students alike.

With 7 faculty members and over 25 graduate students and numerous undergraduates, the groups work on projects that cover a diverse range of experimental and theoretical research.

This Open House will showcase research on Operating Systems, Social Networking, Network Security, Mobile and Pervasive Computing, High-Performance Computing, and Wireless Networking.

Come for the pizza and stay for the demos, posters and a tour of our testbeds!

When: Tuesday November 25, 2008 – 12:00 noon to 2:00 p.m.

Where: BA 5180

No RSVP Required!
