Due: Monday September 14, beginning of tutorial.

This assignment is worth 1% of final grade as part of your 15% for class participation.

Find a newspaper/magazine (i.e. printed) article about (the importance or novelty of something related to) computing. In at most a one page (typed) report, discuss how informative was the article given your background. Is the subject being discussed likely to be of interest in 10 years? in 50 years? Attach (staple) the article to your report.
