"This is a string"
rotate-cw

> (rotate-cw

> (beside

(rotate-cw))

```
> (+ 2 2)
```

```
4
```

```
> (+ 1 2 3 4)
```

```
10
```

```
> (* 4 2)
```

```
8
```

```
> (* 42 7)
```

```
294
```

```
> (+ (* 42 7) (- 42 7))
```

```
329
```

```
> (42 + 7)
```

function call: expects a
function after the open
parenthesis, but found a

number

> (- 42 7)

35

> (- 7 42)

-35

> scale

scale

> pancakes

pancakes: this variable is
not defined

> (scale 1/2

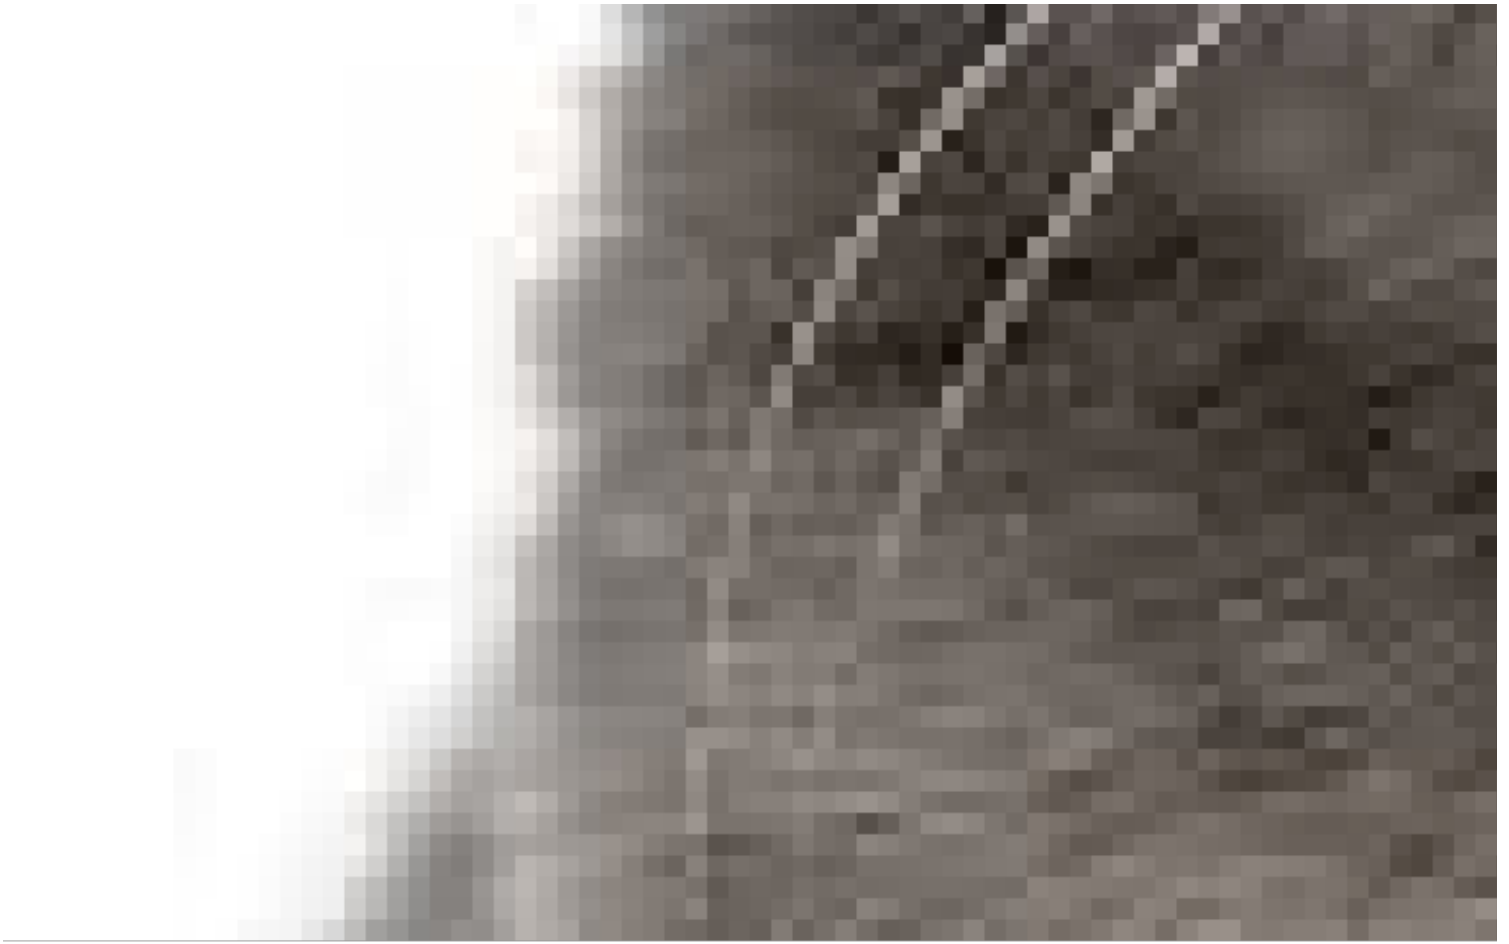

> (scale 10)

```
> (scale  1/2)
```

```
scale: expects a positive  
number for the first  
argument, but received an  
image
```

```
> (scale -1 )  
scale: expects a positive  
number for the first  
argument, but received -1  
> (flip-horizontal
```

)

> (flip-vertical

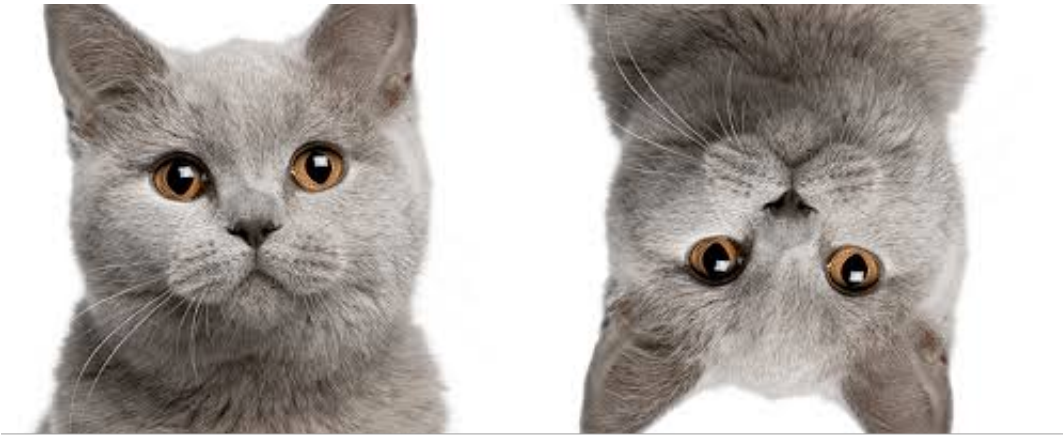

> (beside

(flip-vertical

))

```
> (define cat
```

```
> cat
```

```
> cat-flipped
```

```
cat-flipped: this variable is  
not defined
```

```
> (define cat-flipped
```

```
(flip-vertical cat))  
> cat-flipped
```

```
>
```
