

Eric Charles Roy HEHNER

**Curriculum Vitae**

**2017 April 11**

<i>Degrees</i>	Ph.D. U. of Toronto (computer science) 1974 M.Sc. U. of Toronto (computer science) 1970 B.Sc. Hons. Carleton U. (mathematics and physics) 1969
<i>Positions</i>	Professor Emeritus, U. of Toronto, 2012-now Professor (with tenure), U. of Toronto, 1983-2012 Bell Chair in Software Engineering, U. of Toronto, 2002-2007 Visiting Professor, U. Southampton, 1998 February-May Visiting Professor, U. British Columbia, 1995 January-April Visiting Professor, Simon Fraser U., 1995 January-April Professeur invité, Université de Grenoble, 1987 September-1988 June Visiting Researcher, U. of Texas, Austin, 1987 January-April Visiting Fellow, Wolfson College, Oxford, 1981 April-July Visiting Scientist, Xerox Research Center, Palo Alto, 1980 September-December Associate Professor (with tenure), U. of Toronto, 1979-1983 Assistant Professor, U. of Toronto, 1974-1979 Lecturer, U. of Toronto, 1974 Lecturer, U. of Guelph, 1973 Teaching Assistant, U. of Toronto, 1969-1973 Research Assistant, Defence Research Establishment Pacific Acoustics, 1969 May-August Electro-Magnetics, 1968 May-August
<i>Awards</i>	Patent CA2346514 Method and Device for High-Level Circuit Design 2006 First annual CSSU teaching award, 1987 NRC Postgraduate Scholarships 1969-1974 Woodrow Wilson Fellowship 1969 University Medal in Science (highest standing in graduating class, Faculty of Science), Carleton U., 1969
<i>Affiliations</i>	IFIP Working Group 2.3 on Programming Methodology, member 1977-2012, secretary, 1977-2002 IFIP Working Group 2.1 on Algorithmic Languages and Calculi, member 1998-2012 Association for Computing Machinery, 1975-1986 Institute for Electronic and Electrical Engineers, Computer group, 1975-1985 Computer Systems Research Group/Institute, U. of Toronto, 1974-1991, 1997-2002
<i>Research Interests</i>	formal methods of software design unified algebra, high-level circuit design
<i>Publications</i>	Scholarly Books (authored) 2 Chapters in Books 19 Papers in Refereed Journals 28 Papers in Refereed Conferences 23 Invited Conference Contributions 9 Theses 3 Other Publications 31 Invited Lectures 173

(Books)

E.C.R.Hehner: [\*a Practical Theory of Programming\*](#), first edition 244p. Springer, New York, 1993; current edition online. [Chinese translation](#) Science Press, Beijing 2010

E.C.R.Hehner: *the Logic of Programming*. Prentice-Hall International Series in Computer Science (ed. C.A.R.Hoare), London, 361p., 1984

(Chapters)

E.C.R.Hehner: [“What is a Procedure?”](#), *Present And Ulterior Software Engineering*, B.Meyer (ed.), Springer, 2017

E.C.R.Hehner: [“Specified Blocks”](#), LNCS 4171 p384-391, J.Woodcock, B.Meyer (eds.), Springer, 2008

A.Tafliovich, E.C.R.Hehner: [“Quantum Predicative Programming”](#), LNCS 4014 p.433-454, T.Uustalu (ed.), Springer, 2006

E.C.R.Hehner: [“Retrospective and Prospective for Unifying Theories of Programming”](#), symposium on Unifying Theories of Programming”, LNCS 4010 p.1-17, S.E.Dunne, W.J.Stoddart (eds.), Springer, 2006

E.C.R.Hehner: [“Probabilistic Predicative Programming”](#), LNCS 3125 p.169-185, D.M.Kozen (ed.), Springer, 2004

E.C.R.Hehner, T.S.Norvell: [“High-Level Circuit Design”](#), Chapter 18 in *Programming Methodology*, Morgan, McIver (eds.), p.381-412, Springer, 2003

E.C.R.Hehner, I.T.Kassios: [“Theories, Implementations, and Transformations”](#), LNCS 2272 p.1, D.Bert, J.P.Bowen, M.C.Henson, K.Robinson (eds.), Springer, 2002

E.C.R.Hehner, T.S.Norvell: [“program2circuit”](#), *Advances in Systems Science: Measurement, Circuits and Control*, p.346-353, WSES Electrical and Computer Engineering Series, 2001

E.C.R.Hehner: [“Formalism and the Variable”](#), in *Millennial Perspectives in Computer Science*, Davies, Roscoe, Woodcock (eds.), p.147-156, Palgrave, 2000

E.C.R.Hehner, A.M.Gravell: [“Refinement Semantics and Loop Rules”](#), in *Formal Methods II*, LNCS 1709 p.1497-1510, J.M.Wing, J.Woodcock, J.Davies (eds.), Springer, 1999

R.F.Paige, E.C.R.Hehner: [“Bunches for Object-Oriented, Concurrent, and Real-Time Specification”](#), in *Formal Methods I*, LNCS 1708 p.530-550, J.M.Wing, J.Woodcock, J.Davies (eds.), Springer, 1999

E.C.R.Hehner: [“Boolean Formalism and Explanations”](#), in *Algebraic Methodology and Software Technology*, LNCS 1101 p.351-374, M.Wirsing and M. Nivat (eds.), Springer, 1996

E.C.R.Hehner: [“Abstractions of Time”](#), chapter 12 in *a Classical Mind*, edited by A.W. Roscoe, Prentice-Hall International Series in Computer Science, London, p.191-210, 1994

T.S.Norvell, E.C.R.Hehner: [“Logical Specifications for Functional Programs”](#), chapter in Bird, Morgan Woodcock (eds.): *Mathematics of Program Construction*, LNCS 669 p.269-290, Springer, Berlin, 1993

E.C.R.Hehner: [“What's wrong with formal programming methods?”](#), chapter in *Advances in Computing and Information*, LNCS 497, Springer, Berlin, p.2-23, 1991

E.C.R.Hehner: [“Beautifying Gödel”](#), chapter 18 in Feijen, vanGasteren, Gries, Misra (ed.): *Beauty is our Business*, Springer silver series, New York, p.163-172, 1990

E.C.R.Hehner: [“Termination is Timing”](#), chapter in van de Snepscheut (ed.): *Mathematics of Program Construction*, LNCS 375, Springer, Berlin, p.36-47, 1989

E.C.R.Hehner: “Programming Based on Logic and Logic Based on Programming”, 71p., four chapters in Broy (ed.): *The Logic of Programming and Calculi of Discrete Design*, NATO Advanced Studies Institute Series, Springer, Heidelberg, 1986

C.Lengauer, E.C.R.Hehner: [“a Methodology for Programming with Concurrency”](#), in LNCS 111, W.Handler (ed.), Springer, p.259-270, 1981

(Refereed Journal Papers)

E.C.R.Hehner: [“Scientific Publication”](#), *University Affairs Magazine*, 2014 June

E.C.R.Hehner: [“the Computability Hierarchy”](#), *Advances in Computer Science and Engineering*, v.10 n.2 p.123-131, 2013

E.C.R.Hehner: [“Problems with the Halting Problem”](#), *Advances in Computer Science and Engineering*, v.10 n.1 p.31-60, 2013

E.C.R.Hehner: [“a Probability Perspective”](#), *Formal Aspects of Computing*, v.23 n.4 p.391-419 and DOI 10.1007/s00165-010-0157-0, 2011

*Invited Lectures*

U. of Toronto Math Union, 2016 December 2. the Halting Problem

U. of Texas at Austin, 2016 April 29. Concurrency

Memorial U. St.John's, 2014 September 23. Problems with the Halting Problem

Memorial U. St.John's, 2014 September 23. a Probability Perspective

Memorial U. St.John's, 2014 September 22. Practical Predicative Programming Primer

Memorial U. St.John's, 2014 September 22. from Boolean Algebra to Unified Algebra

McMaster U. Hamilton, 2014 April 10. Problems with the Halting Problem

McMaster U. Hamilton, 2014 January 23. Practical Predicative Programming Primer

U. of Waterloo, 2013 November 28. Problems with the Halting Problem

U. of Waterloo, 2013 November 21. Practical Predicative Programming Primer

McMaster U. Hamilton, 2013 November 14. from Boolean Algebra to Unified Algebra

U. of Waterloo, 2013 November 7. from Boolean Algebra to Unified Algebra

IFIP working group 2.3, (approximately 28 talks) 1977-2012

IFIP working group 2.1, (approximately 12 talks) 1998-2012

iFM&ABZ Pisa 2012 June 18-21. Practical Predicative Programming Primer

Karlsruhe Institute of Technology, 2011 October 21. Problems with the Halting Problem

St.Mary's University Halifax, 2010 November 19. from Boolean Algebra to Unified Algebra

Dalhousie University Halifax, 2010 November 18. a Probability Perspective

U. of Waterloo, 2010 April 6. a Probability Perspective

York U. Toronto, 2010 March 19. a Probability Perspective

Queen's U. Kingston Distinguished Speaker, 2010 March 18. a Probability Perspective

Concordia U. Montréal ECE dept, 2008 November 27. a Probability Perspective

Concordia U. Montréal CS dept, 2008 November 26. Practical Predicative Programming Primer

U. California at Irvine Distinguished Speaker 2008 November 14. a Probability Perspective

VSTTE'08 Toronto 2008 October 9. Practical Predicative Programming Primer

McMaster U. Hamilton, 2008 June 19. a Probability Perspective, 2 hours

Technical U. of Lisbon (IST-UTL), (3 talks) 2007 July 11-13. Probabilistic Predicative

Programming, Incomputable Indeed, from Boolean Algebra to Unified Algebra

U. of Newcastle, 2006 February 9. from Boolean Algebra to Unified Algebra

U. of York UK, 2006 February 8. from Boolean Algebra to Unified Algebra

U. of Alberta, Edmonton Distinguished Speaker, 2005 January 17. Bool Alg to Unified Algebra

U. Passau, 2003 July 10. from Boolean Algebra to Unified Algebra

Åbo Akademi, Turku, (5 talks) 2002 August 19-30. a Practical Theory of Programming

U. of York UK, 2002 January 30. Specifications, Programs, and Total Correctness

Workshop on Programming Methodology, Tandil Argentina, 2000 September 4.

High-Level Circuit Design

Workshop Argentino en Informática Teórica, Tandil Argentina, 2000 September 5.

from Boolean Algebra to Unified Algebra

Seminar on Program Design using Logic, Tandil Argentina, (6 talks) 2000 September 6-13.  
 a Practical Theory of Programming  
 Oxford U., 1999 September 14. Formalism and the Variable  
 York U. Toronto, 1999 May 3. from Boolean Algebra to Unified Algebra  
 Åbo Akademi, Turku, (8 talks) 1998 August 10-21. a Practical Theory of Programming, BAUA  
 Glasgow U., 1998 May 5. from Boolean Algebra to Unified Algebra  
 Cambridge U., 1998 April 24. High-Level Circuit Design  
 Southampton U., (4 talks) 1998 February, March, April. a Practical Theory of Programming(2),  
 from Boolean Algebra to Unified Algebra, Refinement Semantics and Loop Rules  
 U. British Columbia, 1995 February 8. High-Level Circuit Design  
 Simon Fraser U., 1995 February 2. High-Level Circuit Design  
 Universität Passau, 1994 June 10. Abstractions of Time  
 United Nations U., International Institute for Software Technology, Macau,  
 (8 talks) 1994 January 10-23. a Practical Theory of Programming  
 U. of Ottawa, 1993 April 23. Abstractions of Time  
 Bell Northern Research, Ottawa, 1993 April 21. a Practical Theory of Programming  
 U. of Hamburg, 1991 October 11. a Practical Theory of Programming  
 FORTH Institute, Crete, 1991 October 9. a Practical Theory of Programming  
 U. of Crete, 1991 October 8. Formalist heresy: mathematics is based on programming  
 U. of Athens, 1991 October 7. a Practical Theory of Programming  
 U. of Waterloo, 1991 April 16. the ProTem Programming System  
 U. Victoria, 1990 August 28. Formalist heresy: mathematics is based on programming

Victor Kwan 1995-1998 a Predicative Model for Probabilistic Specifications and Programs  
 Dora Cheng 1992-1998 System Integration of Automated Mapping Facilities Management  
 Patrick Prémont 1996-1997 the Situation Calculus and Hehner's Programming Theory  
 Jagdeep Dhillon 1990-1995 CSOM: an Object Oriented Concurrent System  
 Richard Paige 1992-1993 Correctness and Performance Analysis of Imperative and Fctnl Circuits  
 Ray Blaak 1989-1993 Talk Talk: Issues in Describing Communicating Processes  
 Brian Parkinson 1990-1991 Automated Theorem Proving in the ProTem Programming Language  
 Oliver Au 1986-1990 a Survey of Message Passing Techniques  
 Theo Norvell 1985-1988 Expressions, Types, and Data Structures in ProTem  
 W.Macdonald 1983-1987 (lost thesis title)  
 Andrew Malton 1983-1985 an Investigation of Program Expressions  
 Lorene Gupta 1983-1985 Predicative Programs and Paradigms  
 Tiong-Keat Tan 1982-1983 Design of an Expressive Polymorphic Language and its Processor  
 Chris Retterath 1982-1983 (primary co-supervisor) the Interactive Devel't of P'g'ms and Proofs  
 William Robison 1984-1986 a Deterministic Trace Semantics for Communicating Sqrtl Processes  
 Lawrence Shum 1981-1986 (lost thesis title)  
 Donald Chan 1981-1985 Types in Procedural Programming Languages  
 Eugene Fiume 1982-1983 (secondary co-supervisor)  
 Leigh Clayton 1976-1982 the Organization of Multiple Processor Complexes  
 Ken Day 1977-1982 Alegra: a Language for Expressing Grammars and Algorithms  
 Stephen Gretton 1978-1981 Denotational Semantics  
 Paul Lear 1978-1980 Data Abstraction using Algebraic Axioms  
 R.Craig 1978-1980 Applicative Computing  
 Jim desRivières 1976-1980 the Design of an Interactive Program Manipulation System  
 Richard Levine 1976-1979 a Human-Computer Interface for Interactive Information Processing  
 Henry Spencer 1976-1979 Code Generation for Unfriendly Machines  
 Chris Lengauer 1977-1978 Axiomatic Verification of Concurrent Algorithms  
 Brad Silverberg 1976-1977 using a Grammatical Formalism as a Programming Language  
 Raj Sharma 1976-1977 (lost thesis title)

### *Administrative Experience*

SGS Graduate Academic Appeals Board, representative for Division III, 2004-2011  
 Computer Science designated SGS PhD defense chair, 2009-2011  
 Computer Science Senior Promotions Committee, 2010-2011  
 Software Engineering Group CSLab liaison, 2010-2011  
 Computer Science Graduate Committee, 1988-2001, 2004-2011  
 Computer Science Graduate Breadth Evaluator, 2006-2008  
 Computer Science Undergraduate Committee member, 1975-1979, 2005-2006  
 Computer Science Graduate Coordinator, 1988-1997, 1999-2000  
 Computer Science Senior Promotions Committee, 1997, 2000  
 MSc Admissions Committee, Graduate Admissions Committee, 1976-1978, 1988-1997  
 ConGESE representative for UofT, 1995-2001  
 ConGESE Curriculum Committee, 1995-1998  
 School of Graduate Studies NSERC Ranking Committee, 1992-1994  
 UTFA representative, Computer Science and Statistics, 1988-1991  
 School of Graduate Studies Executive Committee, 1988-1989, 1990-1991, 1996-1997  
 Computer Science Associate Chair, 1983-1987  
 Computer Science Department Council, 1983-1997  
 School of Graduate Studies Degree Committee, 1991-1996  
 Chair, Departmental Committee on Computing Resources, 1983-1984  
 Chair, Committee for the Computing Discipline's Facility, 1982-1984  
 Erindale Discipline Representative for Computer Science, 1979-1980

Coordinator for Computer Systems Seminars, 1975-1979  
Erindale Computer Users Committee member, 1974-1979  
Erindale Library Committee member, 1976-1978

*External PhD Examiner*

Kim Solin, Åbo Akademi, Turku, Finland, 2007  
Leonid Mikhajlov, Åbo Akademi, Turku, Finland, 1999  
Marc Frappier, U. of Ottawa, 1995  
Nigel Ward, U. of Queensland, 1994  
John Plaice, U. de Grenoble, 1988  
Carlos Rodriguez, U. de Grenoble, 1988

*Other Service*

editor, *Acta Informatica*, Springer, Heidelberg, 1984-2012  
editor, *Formal Aspects of Computing*, Springer, Heidelberg, 1988-2012  
IFIP WG2.1 meeting host, 2012 October 8-12  
Refine 2011 program committee member  
Mathematics of Program Construction program committee member,  
1989, 1992, 1995, 2002, 2004, 2008, 2010  
Walden University, National Technological University, College of Engineering and  
Science, distance education course development, 2006-2012  
VSTTE'08 International Conference on Verified Software  
host and local organizer and program committee member 2008  
UTP'08 Unifying Theories of Programming, program committee member 2008  
ICFEM'03 International Conference on Formal Engineering Methods  
program committee member 2003  
Academy of Finland evaluator for Academy Professorships, 2001  
FM99 World Congress on Formal Methods, 1999  
conference track organizer and program committee member  
IFIP WG2.3 meeting host, 1993 July, 2005 June  
secretary, 1977-1980, 1997-2004  
ConGESE curriculum development, 1992-1994  
ACM Karl V. Karlstrom Outstanding Educator award  
chair, 1993  
committee member, 1992-1994  
ACM Scholastic Programming Contest advisor, 1992-1994  
IFIP TC2 conference on Algorithmic Languages and Calculi  
program committee member 1996  
IEEE international conference on Computer Languages  
program committee member 1992  
editor, *Information Processing Letters*, Elsevier, Amsterdam, 1984-1991  
IFIP TC2 conference on Constructing Programs from Specifications  
program committee member 1991  
IFIP TC2 conference on Programming Concepts and Methods  
program committee member 1990  
referee for various journals and granting agencies (NSERC, FCAR, NSF, Academy of Finland)  
I wrote the software for recording and calculating grades used by my department  
from 1986 to 2012 (26 years)
