System Rescue CD 2.4.1 (ISO) x86 [iso] [350 MB] All downloads are original and not repacked or modified in any way by us Secure downloads are files hosted and checked by Softpedia

SystemRescueCd is a Linux system available from a bootable CDROM that provides an easy way to perform administrative tasks on your computer, such as creating and editing the partitions of the hard disk or backing up data. SystemRescueCd contains a lot of system utilities (such as parted, partimage, and fstools), and basic programs (such as editors, midnight commander, and network tool... [read more >>])

NOTE: If you have problems downloading SystemRescueCd, please try to stop using your download manager and avoid right clicking on files. Also, check your firewall settings, because some mirrors may require that you do not block the HTTP referers. For further information please read our Downloading FAQ & Guide

Please be aware that Softpedia accepts no responsibility for the software you are downloading. The same applies to the information provided about the software products listed, as the producer can modify it without notifying Softpedia. Even if we try to check the files for viruses ourselves, we cannot guarantee 100% that they are clean. Keep in mind that the integrity and safety of any downloaded software may be affected if it is modified via unofficial patches or other methods. For your own protection ALWAYS check downloaded files for viruses.
