

CSCB07: Software Design

Summer 2004

Instructor

- Shiva Nejati
- email: shiva@utsc.utoronto.ca
- office hours: Tuesdays 12-1p.m. B460

TA

- Mark Senecal
- email: senecal@utsc.utoronto.ca

Classes and Tutorials

Lectures:	Tuesdays	1:00-3:00 p.m.	B516
Tutorials:	Tuesdays	3:00-4:00 p.m.	B526
	Tuesdays	4:00-5:00 p.m.	B526

Course Web page

Course web page: <http://www.cs.toronto.edu/~shiva/cscb07/>

Handouts, assignments, solutions, marks, and important course information will be posted periodically on the web page. You should login regularly to check. You are responsible for announcements made in class and on the web page.

Grading Scheme

Exercises	45%
Midterm Exam (July 6)	15%
Final Exam	40%
	<hr/>
	100 %

To pass the course you must receive at least 40% on the final exam.

Exercises

Assignment	Weight	Due at 10:00 p.m.
E01: Unix, Maps, CVS	5%	Thurs, May 20
E02: Testing	7%	Thurs, Jun 3
E03: Python, Reg. Ex.	8%	Thurs, Jun 17
E04: Parsing, Make	10%	Thurs, Jul 15
E05: Team Project	15%	Mon, Aug 9

Caution

Incorrect submissions: wrong file names, wrong directories, class files instead of java files, missing files, etc., will result in a 20% penalty.

Late Policy

The due date for each assignment will be announced at least one week in advance. Anything submitted up to twenty four (24) hours after the due date will have 20% deducted from its mark. Anything submitted after that will not be marked. Exceptions will be made only for natural disasters, illness (accompanied by a doctor's note), abduction by aliens (accompanied by a note from the aliens), and serious personal emergencies. Please note: "I couldn't get CVS to work" is not an acceptable excuse. You should check material in via CVS as you do it- CVS allows you to revise what you have submitted as many times as you want.

If you wish a late submission to be considered for grading, you must send mail to the instructor not later than 10:00p.m. on the due date (i.e. at most an hour after the late cut-off).
