DEPARTMENT OF MATHEMATICAL AND COMPUTATIONAL SCIENCES
UNIVERSITY OF TORONTO MISSISSAUGA

CSC321H5S LEC0101
Introduction to Neural Networks and Machine Learning
Course Outline - Winter 2014

Class Location & Time           Fri, 11:00 AM - 01:00 PM CC 2130
Instructor                      Anthony Bonner
Office Location                 CC 3079
Office Hours                    F2-3
Telephone                       905-828-3813
E-mail Address                  bonner@cs.toronto.edu
Course Web Site                 http://www.cs.toronto.edu/~bonner/courses/2014s/csc321/webpages

Teaching Assistant             Yue Li
E-mail Address                  yueli@cs.toronto.edu

Course Description
The first half of the course is about supervised learning for regression and classification problems and will include the perceptron learning procedure, backpropagation, and methods for ensuring good generalisation to new data. The second half of the course is about unsupervised learning methods that discover hidden causes and will include Kmeans, the EM algorithm, Boltzmann machines, and deep belief nets. [24L, 12T]

Prerequisite: CSC148H5, 290H5; MAT134Y5/135Y5/137Y5, 223H5; STA256H5 (SCI)
Distribution Requirement: SCI

Students who lack a pre/co-requisite can be removed at any time unless received explicit waiver from department.

Textbooks and Other Materials
No text. Weekly readings will be available on the course web page.

Procedures and Rules

Missed Term Work

Requests for accomodation for a missed test or assignment must be submitted as soon as possible and ideally within 72 hours of the due date of the work in question. The initial request should be sent by email, and a follow-up meeting with the instructor will be scheduled once the request is received. Appropriate documentation (like a U of T medical certificate) will be required. The instructor will specify the type of documentation needed once the initial request is received. The grade for a missed piece of term work will be estimated from other term work and/or the final exam.

Missed Final Exam

Students who cannot write a final examination due to illness or other serious causes must file an online petition within 72 hours of the missed examination. Original supporting documentation must also be submitted to the Office of the Registrar within 72 hours of the missed exam. Late petitions will NOT be considered. If illness is cited as the reason for a deferred exam request, a U of T Medical Certificate must show that you were examined and diagnosed at the time of illness and on the date of the exam, or by the day after at the latest. Students must also record their absence on ROSI on the day of the missed exam or by the day after at the latest. Upon approval of a deferred exam request, a non-refundable fee of $70 is required for each examination approved.

Academic Integrity

Honesty and fairness are fundamental to the University of Toronto’s mission. Plagiarism is a form of academic fraud and is treated very seriously. The work that you submit must be your own and cannot contain anyone else’s work or ideas without proper attribution. You are expected to read the handout How not to plagiarize (http://www.writing.utoronto.ca/advice/using-sources/how-not-to-plagiarize) and to be familiar with the Code of behaviour on academic matters, which is linked from the UTM calendar under the link Codes and policies.

Final Exam Information

Duration: 2 hours
Aids Permitted: 1 page(s) of double-sided Letter (8-1/2 x 11) sheet

Additional Information

Exam "cheat sheets" must be written in 12-point font or larger.

Last Date to drop course from Academic Record and GPA is March 9, 2014.
