Policies and Other Instructions

Re-marking Requests If you feel a piece of your work has been graded unfairly, please submit a written request within *one week* of receiving the work back. Explain your request clearly and briefly. Remark requests must be submitted through MarkUs.

Late Work Late assignments will be handled based on a system of **grace days**: Each student begins the term with **3 grace days**. An assignment handed in from one minute to 24 hours late uses up one grace day. Once you have exhausted your grace days, the penalty is **20%** of the assignment total grade for **each day**.

Discussion Board *General* questions about the course organization, material, and assignments should be posted on the discussion board (<https://piazza.com/utoronto.ca/fall2021/csc4862502>). The discussion board will be monitored by the instructor and TAs, but can also be used for discussion among students. You may NOT discuss the assignment solutions on the board until *one week after the assignment's due date*.

Email Policy Please use your *university email address* and put the *course code* in the subject line of your emails. Use email only for *personal issues* such as requesting special considerations. Compose a short message and clearly describe a single topic. Email response time may be **48 hours or longer**; if you do not hear back as your expectation, come to the weekly office hours.

Academic Integrity Academic integrity is a fundamental principle in higher education. Any breach of academic honesty is a serious academic offence which eventually can affect one's professional life dramatically. Suspected cases of academic dishonesty will be investigated based on the [University's Integrity Policies](#), with no exception.

When discussing assignment problems with other groups, do NOT take any notes (paper or electronic) from the discussions. Your submissions must be developed and written solely based on *your own interpretation* of group discussions, otherwise it will be considered as plagiarism. For details on the meaning of plagiarism and how it can be avoided read [this](#) document.
