**CSC2521HF – Topics in Computer Graphics: Physics-Based Animation**

Visit link for course description: <https://web.cs.toronto.edu/graduate/course-descriptions#csc2521h>

**Qualifications**

Graduate student in research stream of Computer Science with relevant research background preferred. TA should have familiarity with video streaming and editing software, git and the C++ programming language. Ideal candidate will have completed a course in either computer graphics, physics simulation or geometry processing. Must be able during lecture times. Please note CSC417H1F operates as an independent section as an undergraduate course.

**Relevant Criterion**

Previous experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

**Duties**

All duties are in-person unless otherwise indicated. Monitoring in class participation, aggregating student slides for lectures, and assigning roles for each student each week. TA duties may include holding office hours, marking assignments, tests, and, if applicable, exams. TAs may advise students on their projects and help students with their assignments. May be asked to answer student questions on the online course discussion board.

This course may require all TAs to be available to mark the final exam during regular business hours. The final exam date is determined by the Faculty of Arts & Science and may be scheduled between Dec. 5-23. The exam schedule is released in November 2025. Every effort will be made to schedule and complete the exam marking within 5 business days after the final exam date. TAs may be required to complete grading January 5-9, 2026 if the exam is scheduled during the last few days of the exam period. The University is closed for the holiday break between December 24, 2025-January 4, 2026.
