The Department of Computer Science seeks 8 TA(s) for the following course: **CSC301H1F – Introduction to Software Engineering**.

Visit link for course description: <https://artsci.calendar.utoronto.ca/course/csc301h1f>

Position Title

Introduction to Software Engineering

Qualifications

Must be enrolled in, or have completed, an undergraduate or graduate program in Computer Science. Solid professional background in software engineering; Experience with design patterns, code refactoring, with a good sense for software architecture. Hands-on experience with modern libraries and frameworks, web development, and tools. Must have significant professional experience working as a software developer in an agile product development team (Scrum/Kanban). Must be able to do requirements elicitation for software products with demonstrated experience in scoping, planning and active delivery. Must have professional experience with the following: Git and at least one of Java/Python/Ruby/JavaScript. Must be able to lead, coach and mentor students and provide technical leadership and product guidance. For instance, TAs should be able to coach students on how to set up a repo, run unit tests, refactor code, or decide on product features. Prior experience or other strong evidence will be required. Must have excellent verbal and written communication skills Preferred: Experience working with external stakeholders (e.g., customers and partners), Experience with testing and DevOps infrastructure and release management is a bonus. Experience working as a lead or senior developer and/or product manager is preferred.

Relevant Criterion

Previous experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

Duties

Duties are hybrid; mostly remote but some in-person duties may be required. TA duties will include marking assignments and exams or leading team projects, mentoring teams, and holding tutorials. Project TAs may engage community partners (e.g., non-profits, charities, research labs) on the projects and help advise students on their projects. There is no final exam in this course.
