Position Title

Operating Systems

Qualifications

Must be enrolled in, or have completed, an undergraduate or graduate program in Computer Science, with strong academic performance in CSC369 or an equivalent Operating Systems course. Applicants must have extensive experience in C programming, a solid understanding of concurrency, and familiarity with Unix/Linux systems, including tools like debuggers, compilers, and version control. Advanced coursework or graduate-level study in Operating Systems is preferred. Prior TA or instructional experience is an asset. Candidates must have strong organizational and communication skills and be available on campus at least twice per week between 9 AM and 6 PM.

Relevant Criterion

Previous experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

Duties

Duties are in person unless otherwise indicated. TA duties may include: leading tutorials, grading assignments/tests/exams, holding in-person office hours, developing test questions, midterm invigilation.

This course also requires all TAs to be available to mark the final exam in-person during regular business hours. The final exam date is determined by the Faculty of Arts & Science and may be scheduled between December 10 – 22, 2026. The exam schedule is released in November 2026. Every effort will be made to schedule and complete the exam marking within 5 business days after the final exam date. TAs may be required to complete grading January 6-11, 2027 if the exam is scheduled during the last few days of the exam period. The University is closed for the holiday break between December 24, 2026 – January 5, 2027.
