Visit link for course description: <https://artsci.calendar.utoronto.ca/course/csc469h1f>

Position Title

Operating Systems Design and Implementation

Qualifications

Must be enrolled in, or have completed, an undergraduate or graduate program in Computer Science. Demonstrated research interest in the area of Operating Systems Design. Strong operating systems background required and must have received a high mark (at least A-) in CSC369H1 or a similar course. Experience with Unix/Linux systems programming languages and tools, including C programming and debugging with gdb, use of performance profiling tools such as perf, use of command line utilities, shell scripts (e.g., bash) and other scripting languages such as perl and python. Experience writing and debugging concurrent programs, including the use of the pthreads API. Some knowledge of distributed systems (e.g., timing and failure models, agreement protocols, network programming APIs) would be preferred.

Relevant Criterion

Previous experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

Duties

All duties are in person unless otherwise indicated. Responsibilities include leading tutorials, holding office hours, grading assignments, tests, and exams, assisting with test question development, and midterm invigilation.

This course also requires all TAs to be available to mark the final exam in-person during regular business hours. The final exam date is determined by the Faculty of Arts & Science and may be scheduled between April 14 – 29, 2027. The exam schedule is released in March 2027. Every effort will be made to schedule and complete the exam marking within 5 business days after the final exam date. TAs may be required to complete grading May 1-11, 2027 if the exam is scheduled during the last 7 days of the exam period.
