

Department of Computer Science, downtown campus
Job Posting - Teaching Assistant Position – CUPE 3902, Unit 1
Winter 2026 term (January 1, 2026 – April 30, 2026)
(or up to May 8, 2026)

Posted on November 3, 2025 as a Regular Posting

The Department of Computer Science seeks ~17 TA(s) for the following course:

CSC384H1S – Introduction to Artificial Intelligence

Visit link for course description: <https://artsci.calendar.utoronto.ca/course/csc384h1>

CSC384H1S: Regular TAs

Qualifications

Must be enrolled in, or have completed, an undergraduate program in Computer Science. Must have completed CSC384 or equivalent with a grade of at least A-. Thorough understanding of classical AI algorithms such as uninformed and heuristic search, minimax and alpha-beta pruning, constraint propagation, variable elimination algorithm, the Viterbi algorithm, and resolution proof. Excellent programming skills in Python.

Relevant Criterion

Previous experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

Duties

All duties are in person unless otherwise indicated. Proofreading and reviewing assignment instructions and term test drafts. Marking assignments and term tests. Helping students with assignments and test preparation by holding online and in-person office hours. Answering questions on the online discussion board. Holding review sessions before each term test and before the final exam. Processing remark requests.

This course requires all TAs to be available to mark the final exam together in-person. The final exam date is determined by the Faculty of Arts & Science and may be scheduled between Apr. 9-29. The exam schedule is released in March 2026. Every effort will be made to schedule and complete the exam marking within 7 business days after the final exam date. TAs may be required to complete grading May 1-8, 2026 if the exam is scheduled during the last 7 days of the exam period.

Positions Available: 16

Hours of work: 60 hours

CSC384H1S-Lead: Lead TA

Qualifications

Must be enrolled in, or have completed, an undergraduate program in Computer Science. Must have completed CSC384 or equivalent with a grade of at least A-. Excellent knowledge of classical AI

approaches such as different types of Uninformed Search, CSPs, and Symbolic Knowledge Bases. Must be comfortable with developing and using Python / shell scripts for auto-grading. Previous experience as a Teaching Assistant for CSC384 (or an equivalent courses) preferably as a lead TA or an assignment TA. Excellent organizational skills and demonstrated ability to lead small teams. Demonstrated excellent written and verbal communication skills. Must be available during regular business hours to complete assigned duties (for some tasks in-person availability is required). In order to be considered, applicants must include a CV in their application. Please indicate your experience with tools such as MarkUs, CrowdMark, and Quercus in your application.

Relevant Criterion

Previous experience is the more relevant criterion than the need to acquire experience in respect of this posted position.

Duties

All duties are in-person unless otherwise indicated. Duties may include: content development; assisting in developing assignments, tests, solutions, and grading schemes; proofreading and reviewing content; coordinating other TAs for marking assignments, marking tests, responding to online discussion board posts, and holding office hours; handling remark requests for assignments and tests; grading assignments and tests; holding review sessions.

This course requires all TAs to be available to mark the final exam together in-person. The final exam date is determined by the Faculty of Arts & Science and may be scheduled between Apr. 9-29. The exam schedule is released in March 2026. Every effort will be made to schedule and complete the exam marking within 7 business days after the final exam date. TAs may be required to complete grading May 1-8, 2026 if the exam is scheduled during the last 7 days of the exam period.

Positions Available: 1

Hours of work: 60 hours

Estimated Course Enrolment: 500

Rate of Pay: \$53.92/hour (+ vacation pay)
