

On Six Degrees of Separation in DBLP-DB and More

Ergin Elmacioglu Dongwon Lee

Penn State University

Presented by Danny Tarlow
October 4, 2007

The General Plan

- 1 The Graduate Student Guidebook
 - Some simple (but important) questions
 - One harder question
 - Caveat

The Graduate Student Guidebook

Summary: Everything you want to know about publishing.

Outline

- 1 The Graduate Student Guidebook
 - Some simple (but important) questions
 - One harder question
 - Caveat

Some easier (but important) questions

Conferences 101 (for DB students):

- What conferences should you think about submitting to?
- Who should you collaborate with?
- Is it getting harder to publish papers?
 - Is this more complicated than just looking at average papers / author / year?

Some easier (but important) questions

Conferences 101 (for DB students):

- What conferences should you think about submitting to?
- Who should you collaborate with?
- Is it getting harder to publish papers?
 - Is this more complicated than just looking at average papers / author / year?

Some easier (but important) questions

Outline

- 1 The Graduate Student Guidebook
 - Some simple (but important) questions
 - One harder question
 - Caveat

One harder question

Graduate students and professors love to complain about the paper review process.

One harder question

Does this paper have any implications on:

- Choosing a program committee?
- Assigning reviewers to papers?

One harder question

Does this paper have any implications on:

- Choosing a program committee?
- Assigning reviewers to papers?

Outline

- 1 The Graduate Student Guidebook
 - Some simple (but important) questions
 - One harder question
 - Caveat

Caveat

How big of a problem is the caveat?

- Does it suggest this type of analysis is useless?
- Has anybody read the Dickson paper?

Caveat

How big of a problem is the caveat?

- Does it suggest this type of analysis is useless?
- Has anybody read the Dickson paper?

Caveat

How big of a problem is the caveat?

- Does it suggest this type of analysis is useless?
- Has anybody read the Dickson paper?
