CSC486: Knowledge Representation and Reasoning
Winter 2021

Contact Information

Instructors: Bahar Aameri
Email: bahar@cs.toronto.edu

Course website: Quercus, all course material, including lecture slides, will be posted on the portal.

All announcements will be made through portal (Quercus) and/or course discussion board, and it is your responsibility to check them regularly.

Course Overview

Format:
- Lectures: lectures will be available asynchronously and lecture times (Tuesdays 13:00 - 15:00) will be used for further discussions and questions. Students must be prepared to attend two of the scheduled lectures times synchronously during the term to write term tests (see the Evaluation section).
- Tutorials: tutorials will be held synchronously on Wednesdays 15:00-16:00, by arrangement (announcements will be made one week ahead) and may not be recorded.

Technical Requirements and Expectations You need to have access to:
- A full computer on which you can do various things, including browsing web pages, reading lecture slides, and typing and submitting assignments and exercises;
- A reliable computer with a webcam and microphone, as well as a reliable, high-speed internet connection for attending the course meetings, tutorials, and term tests.
- You need to be able to use the Quercus portal (including the BB Collaborate video conferencing module), Zoom, and Microsoft Stream.

You need to be available, by computer, during the tutorials and the assessments.
### Evaluation

The following table summarizes the course-work percentages and due dates. All times are Toronto time.

<table>
<thead>
<tr>
<th>Item</th>
<th>Due Dates</th>
<th>Weight</th>
</tr>
</thead>
<tbody>
<tr>
<td>Assignment #1</td>
<td>Feb 08, 11pm</td>
<td>10%</td>

</table>

### Policies and Other Instructions

**Re-marking Requests** If you feel a piece of your work has been graded unfairly, please submit a written request within *one week* of receiving the work back. Explain your request clearly and briefly. Remark request must be submitted through MarkUs.

**Late Work** Late assignments will be handled based on a system of *grace days*: Each student begins the term with 3 grace days. An assignment handed in from one minute to 24 hours late uses up one grace day. Once you have exhausted your grace days, the penalty is 20% of the assignment total grade for each day.

**Discussion Board** *General* questions about the course organization, material, and assignments should be posted on the discussion board (https://piazza.com/utoronto.ca/winter2021/csc486h1s). The discussion board will be monitored by the instructor and TAs, but can also be used for discussion among students. You may NOT discuss the assignment solutions on the board until *one week after the assignment’s due date*.

**Email Policy** Please use your *university email address* and put the *course code* in the subject line of your emails. Use email only for *personal issues* such as requesting special considerations. Compose a short message and clearly describe a single topic. Email response time may be 24 hours or longer; if you do not hear back as your expectation, come to the weekly office hours.

**Academic Integrity** Academic integrity is a fundamental principle in higher education. Any breach of academic honesty is a serious academic offence which eventually can affect one’s professional life dramatically. Suspected cases of academic dishonesty will be investigated based on the *University’s Integrity Policies*, with no exception. When discussing assignment problems with other groups, do NOT take any notes (paper or electronic) from the discussions. Your submissions must be developed and written solely based on *your own interpretation* of group discussions, otherwise it will be considered as plagiarism. For details on the meaning of plagiarism and how it can be avoided read this document.
