

APS360 Fundamentals of AI

Lisa Zhang

April 8, 2019

Agenda

- ▶ Project Report (short discussion)
- ▶ Exam Overview
- ▶ Exam Review
 - ▶ Jeopardy
 - ▶ Rapid-Fire True-and-False
 - ▶ Code Questions

Project Report

- ▶ Up to 2000 words
- ▶ Structured somewhat like a research paper
 - ▶ goals, overall software, model, data, training, ethical issues, key learning
- ▶ You can see examples at
<http://www.eecg.utoronto.ca/~jayar/mie324/>

Addendum:

- ▶ Up to 500-word description of team member's personal contribution to the project
- ▶ Submitted individually

Exam Overview

- ▶ 100 points, 2.5 hours (?)
- ▶ ~10% multiple choice
- ▶ ~10% true and false
- ▶ ~30% working directly with code
- ▶ definitions, short-answers, etc.
 - ▶ most short-answer questions are 2-mark questions
 - ▶ only one 4-mark long-answer question

Exam Review: Jeopardy!

Setup:

- ▶ 4 teams (?)
- ▶ Five categories: Training, RNN, CNN, GAN, RL
- ▶ Time limit: 10 seconds per question
- ▶ Winning team gets chocolate

Course Evaluations

Exam Review: Rapid-Fire True-and-False!

- ▶ 4 teams (?)
- ▶ Time limit: 10 seconds per question

Exam Review: Code

- ▶ What does the highlighted line of code do?
- ▶ What are its inputs and outputs?
